Detroit, Mich.

AUG 5 - 1940

OUR PLEDGE

To maintain the highest standards of quality on all fixtures manufactured in our plant—

To pass to you in the form of lower prices, the benefit of mass production and ultra-modern methods of manufacture—

To constantly strive for better, more appealing designs in the latest style trends and finishes which compliment not only the lighting fixtures but also the interiors where they are used—

To improve our already high engineering standard for rigid construction, making these fixtures life-long values—

In short, to give you the best money can buy at lower prices than can be obtained elsewhere.

You can't go wrong with

BEAUTY IN WROUGHT GLASS

AUG 5 - 1940

5405

No. 5405—5 light. Length 42", spread 16". 3-way switch control.

No. 5415—5 light. Length 16½", spread 16". Keyless style.

Center spindle made of finely chased aluminum castings finished in polished gold. Furnished with domestic crystal drops. Finish: **Polished Gold**.

No. 5455—5 light. Length 42", spread 16".
3-way switch control.

No. 5465—5 light. Length 13¾", spread 16". Keyless style.

Clear crystal glass center stem.
Finish: **Polished Gold**.

The glass bowl on these fixtures is finished in a pleasing honey color on the outside while the inside is sprayed white. The finely pressed leaves are left clear with the white enamel backing on inside to eliminate glare. An embossed metal band adorns the edge of each of these bowls.

• IMPORTANT INFORMATION •

WIRING—All fixtures are wired complete unless otherwise specified.

APPROVAL—All electrical devices such as wire, sockets, switches and convenience outlets are approved by the National Board of Fire Underwriters. Each fixture is rigidly inspected and tested before packing.

FINISHES—The finishes specified for each item are the result of exhaustive research and have been selected as the most appropriate and practical for the fixture. Excessive additional cost of special finishes prohibit us from furnishing any other than those specified for each item. Where more than one finish is available on a fixture please specify which one is required.

PACKING—Fixtures are packed assembled, in cartons which are especially partitioned and rigidly tested to suit the individual requirements insuring receipt of shipment in best possible condition. Standard package quantities are noted in the price list. If less than standard package quantity is required, an additional charge for repacking will be necessary.

ORDERING—On Rush Orders much time can be saved by ordering by wire. For this purpose we have compiled a code, which is shown below, with full instructions for its use.

SHIPPING—Please specify whether you prefer to have your goods shipped by Parcel Post, Freight, Express or Boat. If we lack these instructions we will ship according to our own discretion.

DAMAGE—If loss or damage is incurred in shipment please notify your transportation agent immediately. Though we cannot be held responsible for collection of any claim we will cooperate to any extent possible. When breakage necessitates replacement of parts give fixture number, close description of part and finish. No goods are returnable without our authorization.

TERMS—F. O. B. factory, 1%—10 days, net 30 days. Credit will be extended those rated in Dun & Bradstreet or those who can furnish satisfactory credit references. All C. O. D. or sight draft orders must be accompanied by a deposit of 25% of order; terms on these orders are net.

TELEGRAPHIC INFORMATION AND CODE LINCOLN MANUFACTURING CO.

For the convenience of our customers in ordering fixtures by telegraph, we have worked out a code, which, if used correctly, will save you considerable expense, inasmuch as it eliminates a good many words otherwise necessary in an ordinary telegram.

It is permissible to group five letters together, which is counted as one word. You may use code words alone, or with English words, but code letters cannot be attached to English words.

Following is an example of an actual telegram received amounting to thirty-eight words, and the same reduced to code amounting to only ten words:

"Rush freight ten number eighty four naught five drop and forty number eighty four naught six. Also three number seventy one naught five drop and three number seventy one fifteen ceiling and two number twenty nine naught one."

"WAJ PHDJE FORTY PHDJF THREE PGAJE THREE PGAAE TWO PBIJA."

We might call to your attention that a good many of our customers use a lot of unnecessary words in telegrams. For instance, most of our fixture numbers designate themselves the number of lights, such as No. 2035 is a five-light, No. 2033 is a three-light, all our one-light brackets end in six and two-light brackets in seven. Where a fixture is made in only one finish, as are most of our numbers, it is not necessary to state the finish.

Following are the code letters and words they represent:

A	1
B	2
C	3
D	4
E	5
F	6
G	7
H	8
I	9
J	0
K	Drop
L	Candle
M	Ceiling
N	Hundred
O	Thousand
P	Number
Q	Lantern
R	Bracket
S	Fixture
T	Wired
U	Unwired
V	Parcel Post
W	Freight
X	Express
Y	Boat
Z	Wire Reply
